Summary — Senior Software Engineer with 8+ years building enterprise-grade products, currently shipping Identity & Access Management (IAM) features at Okta used by thousands of organizations worldwide. Full-stack across React/TypeScript, Node.js BFF layers, and Java/Spring Boot integrations within a large-scale monolith. Product-minded—partner closely with PMs, designers, and backend teams to clarify API contracts and ship flag-gated, zero-downtime releases. Experienced leveraging generative AI tooling (GitHub Copilot, Claude, GPT-4) to accelerate delivery and drive measurable product growth.

Skills

Languages	TypeScript, JavaScript (ES2023+), Java, Python, SQL, HTML5, CSS3/SASS	Product	Controls, User Lifecycle Management
Frontend	React.js, React Native, Next.js, Redux, Tailwind CSS, styled-components, i18n, a11y		A/B Testing, Feature Flags, Product Analytics, User Onboarding, Experimentation
Backend	Node.js (BFF), Spring Boot (integration), REST APIs, Microfrontends	DevOps	Nx, Vite, Webpack, Docker, Git, CI/CD, Azure DevOps, AWS
Identity	IAM, Authentication/Authorization, Access	AI	GitHub Copilot, Claude, ChatGPT (GPT-4), OpenAI API, prompt engineering

Experience

Okta <i>Senior Software Engineer – Identity & Access Management</i>	Oct 2025 – Present <i>Bengaluru, India</i>
– Deliver admin console features across authentication policies, user lifecycle management, and access controls—from API integration and state management to localized, accessible UI shipped to enterprise customers at scale. – Build and maintain microfrontend packages integrated into a large-scale Java monolith, owning the release pipeline and coordinating flag-gated, zero-downtime deploys with backend teams. – Partner with PMs, designers, and backend engineers to clarify API contracts and surface edge cases early, reducing rework and keeping delivery on schedule. – Ship features with full test coverage, internationalization, and kill-switch support—meeting the quality bar for identity infrastructure; author docs and onboard new engineers.	
Aviatrix <i>Senior Member of Technical Staff – UI</i>	Jan 2025 – Aug 2025 <i>Remote</i>
– Built performant, maintainable UI for Aviatrix’s Copilot platform on a Node.js BFF layer as part of a globally distributed team. – Owned features end to end—design handoff through release—with comprehensive unit and integration testing. – Leveraged generative AI tooling to accelerate UI development and automate test coverage, reducing manual effort by ~30%; maintained the internal design system (FlightSuit).	
OmniRetail Technology Ltd <i>Staff Engineer / Senior Frontend Engineer, Growth</i>	Apr 2021 – Jan 2025 <i>Lagos, Nigeria</i>
– Built React and React Native apps for manufacturers, distributors, and retailers across Africa on a Next.js/Nx monorepo; later led frontend architecture, testing, and release standards as Staff Engineer. – Ran product growth experiments with A/B testing and feature flags, driving a 50% increase in user acquisition and a 40% improvement in conversion rates. – Optimized onboarding flows, reducing drop-offs by 31% and increasing activation by 25%. – Owned analytics instrumentation (CleverTap)—event taxonomy, user segmentation, and dashboards powering product and marketing decisions.	
YouPlus Inc. <i>Frontend Engineer</i>	Dec 2017 – Aug 2019 <i>Bengaluru, India</i>
– Built and shipped multiple 0→1 dashboards for video metadata tagging, curation, and analytics in React, informing product strategy and customer engagement. – Integrated REST APIs and libraries (Redux, redux-saga, React Router, Highcharts); mentored junior engineers and drove code reviews.	
TotalCloud.io <i>Software Engineer</i>	Jul 2017 – Dec 2017 <i>Bengaluru, India</i>
– Automated UI validation and QA workflows (Sikuli, C#, JavaScript) for early cloud-automation products.	
HackerEarth <i>Intern</i>	Feb 2016 – Jun 2016 <i>Bengaluru, India</i>

Education

University of Portsmouth <i>MSc, Management Information Systems</i> – Selected for ERASMUS exchange; top of class in UX Design and Database Management.	Sep 2019 – Sep 2020 <i>Portsmouth, UK</i>
St Joseph Engineering College <i>BE, Information Science</i>	Sep 2011 – Sep 2015 <i>Mangaluru, India</i>

Achievements

- Recognized as "Young Talent – Future Leaders" at OmniRetail (2022) for contributions to growth; invited to Nigeria HQ to strategize with the CEO.
- Led monorepo migration across React Native and web apps, improving feature delivery and code maintainability.
